Position the Sealing Connector against the tie rod

Close the Sealing Connector

Slide the Sealing UFO over the tie rod

Anchor the Sealing Connector using the Sealing UFO

WITH SEALING RING

Or slide the Sealing Ring over the tie rod

Anchor the Sealing Connector using the Sealing Ring

The water swellable sealing products by BeSealed® are based on the unique Active Sealing technology. Our products expand on contact with water. This is how they create an active seal to combat moisture infiltration. The BeSealed® products are self-correcting and thus also sealing the unevenness and imperfections of the concrete.
