SEALING UFO

Watertight sealing of concrete cracks around formwork spacers

Engineered design
Easy installation
For spacers of different sizes
The water swellable sealing products by BeSealed® are based on the unique Active Sealing technology. Our products expand on contact with water. This is how they create an active seal to combat moisture infiltration. The BeSealed® products are self-correcting and thus also sealing the unevenness and imperfections of the concrete.

The Sealing UFO is available in different sizes and can be customized to your specific formwork.

The Sealing Connector is available in different sizes and is slid over the tie rod and anchored with the Sealing UFO or the Sealing Ring.
